WORK EXPERIENCE

Crop Science Advisor

2020-2023

Organic Farming Research Institute

- Provided technical guidance on organic crop management to over 150 farmers.
- Conducted field trials to assess organic pest management techniques.
- Developed crop management plans tailored to individual farm needs.
- Organized training sessions on soil health and fertility management.
- Collaborated with research teams to analyze crop performance data.
- Facilitated farmer workshops that emphasized practical organic techniques.

Extension Agent

2019-2020

Local Agricultural Extension Office

- Delivered educational programs on organic farming practices to diverse audiences.
- Conducted assessments of local farming operations to identify challenges.
- Collaborated with community stakeholders to promote organic farming initiatives.
- Monitored program outcomes and provided feedback for continuous improvement.
- Engaged in outreach activities to raise awareness of organic farming benefits.
- Published a quarterly newsletter to share organic farming tips and success stories.

ACHIEVEMENTS

- Increased farmer adoption of organic practices by 30% through targeted education.
- Recognized as 'Top Educator' by the State Agricultural Society in 2023.
- Developed a successful outreach program that engaged over 500 farmers.
