BACHELOR OF SCIENCE IN ENVIRONMENTAL SCIENCE, UNIVERSITY OF FLORIDA

ACHIEVEMENTS

- Received the Community Sustainability Award in 2021.
- Increased community participation in organic farming initiatives by 60%.
- Published a guide on permaculture practices for small-scale farmers.

PROFILE

Accomplished Organic Farming Specialist with a robust background in permaculture and regenerative agriculture. Expertise in designing and implementing systems that leverage natural ecosystems to enhance agricultural productivity. A strong advocate for biodiversity, with extensive experience in soil restoration techniques and water conservation practices. Proven ability to lead community-based farming projects that foster sustainability and resilience in local food systems.

EXPERIENCE

PERMACULTURE DESIGNER

Sustainable Gardens Co.

2016 - Present

- Developed permaculture designs for over 20 farms, resulting in increased biodiversity.
- Implemented water conservation techniques that reduced irrigation needs by 50%.
- Conducted workshops on regenerative agriculture for local farmers.
- Collaborated with environmental organizations to promote sustainable land use.
- Monitored and evaluated the ecological impact of farming practices.
- Provided ongoing support and training for farmers on permaculture principles.

ORGANIC FARMING EDUCATOR

Green Future Initiative

2014 - 2016

- Designed educational curricula focused on organic farming and sustainability.
- Facilitated training sessions for over 200 participants on organic methods.
- Developed community outreach programs that increased local engagement in organic practices.
- Conducted research on the impact of organic farming on community health.
- Created online resources and tools for farmers transitioning to organic.
- Led initiatives that connected farmers with local markets to boost sales.
