EDUCATION

M.S. IN AGROECOLOGY, UNIVERSITY OF GREEN SCIENCES, 2014

ACHIEVEMENTS

- Developed a community soil health program that increased local farmer engagement by 40%.
- Published research on organic amendments in a peer-reviewed journal, contributing to the field.
- Facilitated a series of successful workshops attended by over 200 farmers on sustainable practices.

PROFILE

Accomplished Organic Soil Management Specialist with extensive experience in agroecology and sustainable farming systems. Proficient in the application of organic soil amendments and regenerative agricultural practices that enhance soil biodiversity and fertility. Expertise in conducting soil assessments and developing integrated management plans that align with environmental sustainability goals. Demonstrated ability to lead interdisciplinary teams in research and educational initiatives aimed at promoting environmentally responsible farming practices.

EXPERIENCE

ORGANIC FARMING CONSULTANT

EcoAg Solutions

2016 - Present

- Advised farmers on organic soil management techniques to enhance crop production.
- Conducted workshops on soil health and sustainable farming practices.
- Developed educational materials to support farmer training programs.
- Performed soil testing and analysis to guide organic amendment applications.
- Collaborated with local agricultural organizations to promote soil conservation initiatives.
- Monitored and evaluated the effectiveness of implemented soil management strategies.

RESEARCH ASSISTANT

University of Sustainable Agriculture

2014 - 2016

- Assisted in research projects focused on organic soil amendments and their impact on soil health.
- Conducted soil sampling and analysis for various research studies.
- Collaborated with faculty to publish findings in academic journals.
- Supported outreach programs to disseminate research results to local farmers.
- Participated in field trials assessing the performance of organic fertilizers.
- Contributed to grant writing efforts to secure funding for soil research initiatives.
