Michael Anderson

ORTHOPEDIC TECHNOLOGIST

Dynamic Orthopedic Technologist with 6 years of experience in orthopedic technology within a busy urban hospital. Adept at performing a variety of tasks, from assisting in surgeries to managing patient care before and after procedures. Passionate about providing high-quality care to patients and ensuring they understand their treatment options. Proven ability to adapt to fast-paced environments while maintaining a strong focus on patient safety and satisfaction.

EXPERIENCE

ORTHOPEDIC TECHNOLOGIST

Urban Medical Center

2016 - Present

- Assisted in over 250 orthopedic surgeries, ensuring all equipment and instruments were prepared and sterilized.
- Conducted patient assessments and documented medical histories to support treatment plans.
- Educated patients on post-surgical care and rehabilitation processes.
- Collaborated with surgical teams to improve workflow efficiency during procedures.
- Monitored patients' recovery progress and provided necessary adjustments to care plans.
- Participated in quality improvement initiatives, contributing to a 15% decrease in post-operative complications.

SURGICAL TECHNICIAN

Metro Health Hospital

2014 - 2016

- Supported orthopedic surgery teams by providing necessary instruments and supplies during procedures.
- Maintained a sterile environment by adhering to strict hygiene protocols.
- Assisted in patient positioning and preparation for surgery.
- Documented surgical procedures and patient responses in electronic health records.
- Engaged in continuous education to stay updated on the latest orthopedic techniques and technologies.
- Facilitated communication between patients and medical staff to enhance care delivery.
