## **EXPERTISE SKILLS**

- Oxy fuel cutting
- Team supervision
- Quality assurance
- Safety training
- Production analysis
- Process optimization

## **LANGUAGES**

- English
- Spanish
- French

## **CERTIFICATION**

- Diploma in Industrial Technology, Community College

# MICHAEL ANDERSON

## OXY FUEL CUTTING SUPERVISOR

Accomplished Oxy Fuel Cutting Technician with a robust background in heavy industry applications. Demonstrated expertise in managing complex cutting projects, leveraging advanced cutting technologies to achieve superior results. Renowned for meticulous attention to detail and unwavering dedication to safety protocols. Proven capacity to work collaboratively in high-stakes environments, ensuring projects are completed on time and within budget.

## **PROFESSIONAL EXPERIENCE**

### **Heavy Metal Fabricators**

*Mar 2018 - Present*

Oxy Fuel Cutting Supervisor

- Supervised a team of technicians in executing high-volume cutting operations.
- Designed and implemented cutting strategies to enhance efficiency and reduce costs.
- Conducted comprehensive training programs focused on safety and operational excellence.
- Implemented quality assurance protocols to ensure compliance with industry standards.
- Collaborated with project managers to ensure timely completion of all cutting tasks.
- Reviewed and analyzed production data to identify opportunities for optimization.

### **Industrial Machining Corp.**

*Dec 2015 - Jan 2018*

Oxy Fuel Cutting Technician

- Performed oxy fuel cutting tasks on various materials, meeting specifications and tolerances.
- Maintained and serviced cutting equipment to ensure optimal performance.
- Collaborated with engineering teams to refine cutting processes.
- Documented daily cutting metrics and reported to management.
- Assured compliance with safety regulations during all cutting operations.
- Participated in cross-functional meetings to discuss project status and improvements.

## **ACHIEVEMENTS**

- Led a project that reduced production times by 25%, significantly increasing throughput.
- Recognized for outstanding leadership during a major operational turnaround.
- Achieved a zero-incident safety record over a two-year period.
