---

Innovative parliamentary researcher with a strong focus on technology policy and digital governance. Over five years of experience in conducting research that informs legislative initiatives related to technology and innovation. Skilled in analyzing the implications of emerging technologies on public policy and societal norms. Proven ability to collaborate with tech industry stakeholders to develop policy frameworks that promote innovation while safeguarding public interests.

## 💼 WORK EXPERIENCE

**Technology Policy Researcher**                    2020-2023

Digital Governance Agency

- Conducted research on the impact of emerging technologies on legislative frameworks.
- Collaborated with industry experts to develop recommendations for tech policy reforms.
- Analyzed data on technology trends to inform legislative proposals.
- Prepared reports for policymakers on the implications of digital governance.
- Engaged with community stakeholders to assess public sentiment on technology issues.
- Presented findings at national conferences focused on technology and policy.

**Research Associate**                    2019-2020

Institute for Technology and Society

- Supported research initiatives on technology's role in public policy and governance.
- Conducted surveys to assess public attitudes towards technology legislation.
- Assisted in drafting policy briefs on digital rights and governance.
- Collaborated with NGOs to promote awareness of technology-related issues.
- Analyzed case studies of successful technology policy implementations.
- Contributed to publications on technology policy in leading journals.

## ⭐ ACHIEVEMENTS

- Recipient of the Innovation in Policy Research Award for contributions to technology legislation.
- Published research findings in top-tier technology journals, enhancing professional reputation.
- Successfully advocated for the adoption of progressive technology policies in state legislation.
