## EDUCATION

**MASTER'S IN INSTRUCTIONAL TECHNOLOGY, STATE UNIVERSITY**

## ACHIEVEMENTS

- Increased student engagement by 35% in courses utilizing technology-enhanced strategies.
- Published 4 articles on technology in education in reputable journals.
- Received the Innovative Educator Award in 2023.

As a pedagogical researcher with a focus on the integration of technology in education, I have spent the past 8 years exploring how digital tools can enhance teaching and learning outcomes. I have a background in instructional design and have worked with various educational institutions to implement technology-driven solutions. My research aims to identify best practices for using technology to facilitate student engagement and improve learning experiences.

## WORK EXPERIENCE

### EDUCATIONAL TECHNOLOGY RESEARCHER

Tech for Learning Institute

2020 - 2025

- Conducted research on the impact of mobile learning apps on student engagement in secondary education.
- Developed and tested blended learning models that integrate technology into traditional classrooms.
- Collaborated with teachers to create digital resources that align with curriculum standards.
- Analyzed data from pilot programs to assess the effectiveness of implemented technologies.
- Presented findings at conferences on educational technology, contributing to the field's body of knowledge.
- Published research reports that guide educators on best practices for technology integration.

### INSTRUCTIONAL DESIGNER

Learning Innovations Group

2015 - 2020

- Designed online courses and training programs for K-12 educators focused on technology integration.
- Conducted needs assessments to identify gaps in teachers' technological skills.
- Facilitated workshops on effective use of educational technology.
- Collaborated with cross-functional teams to develop engaging online learning experiences.
- Evaluated the impact of training programs on teacher performance and student outcomes.
- Produced instructional materials that support technology-enhanced learning.
