

# MICHAEL ANDERSON

## URBAN PEST MANAGEMENT SCIENTIST

### PROFILE

With a decade of experience as a Pest Management Scientist in the urban pest control industry, I bring a unique perspective to pest management strategies that prioritize public health and safety. My expertise includes the development of integrated pest management plans in residential and commercial settings, focusing on identifying pest species, assessing infestation levels, and implementing effective control measures.

### EXPERIENCE

#### URBAN PEST MANAGEMENT SCIENTIST

##### CityGuard Pest Control

2016 - Present

- Developed comprehensive pest management plans for over 150 commercial properties.
- Implemented eco-friendly pest control solutions, reducing chemical use by 40%.
- Conducted training sessions for staff on safe pest management practices and regulations.
- Utilized thermal imaging technology to identify pest infestations in difficult-to-access areas.
- Collaborated with city officials on public health initiatives related to pest control.
- Created educational materials for homeowners on integrated pest management techniques.

#### PEST CONTROL TECHNICIAN

##### SafeHome Pest Solutions

2014 - 2016

- Performed pest inspections and identified infestations in residential properties.
- Applied pest control treatments using both chemical and non-chemical methods.
- Maintained accurate records of pest control treatments and client interactions.
- Educated clients on pest prevention methods to reduce future infestations.
- Assisted in developing training materials for new technicians.
- Achieved a customer satisfaction rating of over 95% in post-service surveys.
