EXPERTISE SKILLS

- Formulation Development
- Process Scale-Up
- Validation Protocols
- Cross-Functional Leadership
- Regulatory Compliance
- Continuous Improvement

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Science in Pharmaceutical Sciences, University of Michigan

MICHAEL ANDERSON

LEAD PROCESS ENGINEER

Dedicated Pharmaceutical Process Engineer with 15 years of experience in the formulation and development of drug products. My career has focused on translating scientific concepts into scalable manufacturing processes, particularly in the area of oral solid dosage forms. I have a comprehensive understanding of process scale-up, formulation optimization, and equipment validation.

PROFESSIONAL EXPERIENCE

Global Pharma Corp.

Mar 2018 - Present

Lead Process Engineer

- Oversaw the scale-up of multiple oral solid dosage products, improving production capacity by 40%.
- Implemented new formulation techniques that enhanced bioavailability of key products.
- Developed and executed comprehensive validation protocols for new manufacturing equipment.
- Collaborated with R&D to transition new products from laboratory to commercial scale.
- Conducted training for manufacturing staff on new processes and equipment.
- Led cross-functional teams in troubleshooting complex production issues.

Pharma Innovations Group

Dec 2015 - Jan 2018

Process Engineer

- Designed and optimized manufacturing processes for solid dosage forms, reducing cycle times by 20%.
- Performed risk assessments to identify and mitigate potential manufacturing issues.
- Supported the development of new product formulations and scaling up production.
- Analyzed production data to drive continuous improvement initiatives.
- Ensured compliance with regulatory standards throughout the production process.
- Participated in project meetings to discuss process improvements and updates.

ACHIEVEMENTS

- Successfully launched 10 new products in the market within a 3-year timeframe.
- Improved manufacturing efficiency, leading to a 35% reduction in production costs.
- Recognized with the 'Innovation Award' for developing a novel formulation technique.
