EDUCATION

CERTIFICATE IN PHLEBOTOMY

ACHIEVEMENTS

- Recognized for outstanding patient care through multiple patient satisfaction surveys.
- Developed a training program for new hires focused on pediatric techniques.
- Increased blood donation participation in community outreach programs by 25%.

PROFILE

Compassionate phlebotomist with a strong background in pediatric care and over 3 years of experience. Skilled in drawing blood from infants and children with a gentle approach that minimizes discomfort. Experienced in working within busy hospital environments, ensuring the safety and well-being of young patients. Strong communicator with the ability to explain procedures to children and their caregivers, helping to alleviate anxiety.

EXPERIENCE

PEDIATRIC PHLEBOTOMIST

Children's Health Hospital

2016 - Present

- Conducted blood draws for over 150 pediatric patients monthly, ensuring a calm environment.
- Developed a child-friendly communication strategy to ease anxiety during procedures.
- Worked closely with pediatricians to coordinate care and enhance treatment plans.
- Maintained accurate records in compliance with HIPAA regulations.
- Trained nursing staff on best practices for pediatric blood collection.
- Participated in family education sessions about blood tests and procedures.

PHLEBOTOMIST

Metro Health Clinic

2014 - 2016

- Performed routine blood collections with a focus on patient comfort and precision.
- Collaborated with lab personnel to ensure timely testing and reporting of results.
- Assisted in inventory management of blood collection supplies and equipment.
- Engaged with families to explain the importance of blood work in treatment plans.
- Implemented a new tracking system for blood samples that improved efficiency.
- Participated in community health fairs to promote health screenings.
