# MICHAEL ANDERSON

## POLICY RESEARCH ANALYST

Dynamic Physical Sciences Policy Analyst with a focus on agricultural policies and their environmental impacts. Over 4 years of experience working with agricultural organizations to develop science-driven policies that enhance sustainability and food security. Skilled in data analysis and stakeholder collaboration, with a strong background in environmental science. Committed to promoting best practices in agriculture that align with environmental conservation efforts.

## **PROFESSIONAL EXPERIENCE**

### **Agricultural Sustainability Coalition**

*Mar 2018 - Present*

Policy Research Analyst

- Researched and analyzed agricultural practices to inform policy recommendations.
- Collaborated with farmers to promote sustainable land management techniques.
- Prepared policy briefs and recommendations for stakeholders.
- Facilitated community meetings to discuss agricultural policies and gather feedback.
- Evaluated the environmental impact of proposed agricultural regulations.
- Supported outreach efforts to educate farmers on sustainable practices.

### **Center for Environmental Policy**

*Dec 2015 - Jan 2018*

Research Associate

- Assisted in studying the effects of agricultural policies on biodiversity.
- Conducted surveys to collect data from agricultural stakeholders.
- Co-authored reports on the impact of climate change on agriculture.
- Participated in workshops to disseminate research findings.
- Maintained databases of agricultural research and policy initiatives.
- Contributed to grant proposals for environmental research funding.

## **ACHIEVEMENTS**

- Developed a policy that increased adoption of sustainable farming practices by 25%.
- Recognized for excellence in research by the Agricultural Policy Association.
- Successfully organized a statewide conference on sustainable agriculture attended by over 200 participants.
