- French

EDUCATION

BACHELOR OF SCIENCE IN ENVIRONMENTAL ENGINEERING, UNIVERSITY OF CALIFORNIA, BERKELEY, 2010

ACHIEVEMENTS

- Successfully delivered 10 renewable pipeline projects under budget and ahead of schedule.
- Recognized for leadership in promoting sustainable practices in pipeline construction.
- Contributed to a 25% reduction in project-related emissions through innovative design solutions.

WORK EXPERIENCE

PIPELINE CONSTRUCTION MANAGER

Green Energy Pipelines

2020 - 2025

- Managed the construction of renewable energy pipelines, ensuring environmental compliance.
- Coordinated with engineering teams to develop sustainable design solutions.
- Oversaw project timelines, ensuring on-time delivery of construction milestones.
- Implemented best practices for waste reduction and resource management.
- Facilitated communication between stakeholders to align project objectives.
- Trained teams on sustainable construction methods and safety protocols.

PROJECT ENGINEER

EcoPipeline Solutions

2015 - 2020

- Assisted in the design and planning of eco-friendly pipeline systems.
- Conducted site assessments to evaluate environmental impacts.
- Collaborated with multidisciplinary teams to optimize pipeline routes.
- Monitored project compliance with environmental regulations.
- Prepared reports for stakeholders detailing project progress and compliance status.
- Participated in community engagement initiatives to address public concerns.
