- French

WORK EXPERIENCE

Crop Management Technician 2020-2023
FarmTech Solutions

- Assisted in the development of crop management plans for various crops.
- Utilized precision agriculture tools to monitor crop health and growth.
- Conducted soil tests and recommended amendments based on results.
- Collaborated with farmers to implement best practices for crop management.
- Trained farm staff on monitoring techniques and data collection.
- Analyzed production data to identify trends and make recommendations.

Agricultural Intern 2019-2020
Harvest Innovations

- Supported research projects focused on crop physiology and management.
- Assisted in data collection and analysis for various studies.
- Participated in field trials to assess crop performance.
- Helped with the preparation of reports and presentations.
- Engaged in community outreach to promote agricultural practices.
- Contributed to the maintenance of research plots and equipment.

ACHIEVEMENTS

- Improved crop yields by 10% through targeted management interventions.
- Contributed to a research project that led to a new crop variety development.
- Presented findings at local agricultural fairs, enhancing community knowledge.
