WORK EXPERIENCE

Plant Pathology Specialist

2020-2023

AgriHealth Corp

- Diagnosed plant diseases through field assessments and laboratory analysis.
- Developed disease management plans tailored to specific crop needs.
- Conducted research on disease resistance in various plant species.
- Trained agricultural staff on disease identification and management.
- Collaborated with agronomists to enhance crop health and yield.
- Prepared reports on disease trends and management effectiveness.

Research Assistant in Plant Pathology

2019-2020

CropScience Institute

- Assisted in research projects focused on plant disease resistance.
- Conducted field trials to evaluate disease management strategies.
- Collected and analyzed data on disease outbreaks and impacts.
- Supported the development of educational materials for farmers.
- Collaborated with research teams to publish findings.
- Participated in outreach programs to educate the community on plant health.

ACHIEVEMENTS

- Reduced disease incidence in crops by 30% through effective management plans.
- Published research findings in peer-reviewed journals on plant disease resistance.
- Developed training programs that improved farmer knowledge on disease management.
