WORK EXPERIENCE

Tissue Culture Program Coordinator

2020-2023

Sustainable Agriculture Inc.

- Coordinated tissue culture projects to enhance crop yields.
- Managed budgets and resources for research initiatives.
- Developed partnerships with local farmers for outreach programs.
- Trained staff on best practices for tissue culture.
- Conducted workshops to educate the community on sustainable practices.
- Evaluated project outcomes and reported findings to stakeholders.

Research Assistant

2019-2020

Horticultural Research Center

- Assisted in the development of tissue culture protocols.
- Conducted experiments to assess plant growth conditions.
- Maintained detailed records of experimental procedures.
- Supported senior researchers in data collection and analysis.
- Participated in field trials for plant evaluation.
- Contributed to safety and compliance training for lab staff.

ACHIEVEMENTS

- Increased community engagement in sustainable practices by 60%.
- Successfully implemented a tissue culture program that boosted local crop yields.
- Presented findings at regional agricultural conferences.
