# Michael Anderson

## HAND AND UPPER EXTREMITY SURGEON

Experienced Plastic Surgeon with a strong background in hand surgery and reconstruction, boasting over 11 years of hands-on experience. I am dedicated to improving patients' quality of life through advanced surgical techniques and personalized care plans. My expertise lies in treating complex hand injuries, congenital deformities, and conditions affecting upper extremities.

## EXPERIENCE

### HAND AND UPPER EXTREMITY SURGEON

Upper Limb Surgical Center

2016 - Present

- Performed over 500 hand surgeries, including advanced reconstruction and repair techniques.
- Implemented patient education initiatives that improved understanding of surgical options.
- Collaborated with physical therapists to develop post-operative rehabilitation plans.
- Conducted research that contributed to enhanced surgical techniques in hand surgery.
- Participated in community health fairs to promote awareness of hand injuries and prevention.
- Mentored junior surgeons in specialized hand procedures, fostering skill development.

### PLASTIC SURGERY FELLOW

City Medical Center

2014 - 2016

- Assisted in a variety of plastic and reconstructive surgeries, focusing on hand and upper extremity cases.
- Engaged in case presentations that enhanced team learning and skill sharing.
- Conducted pre-operative assessments to ensure patient readiness for surgery.
- Participated in clinical research aimed at improving patient outcomes in hand surgery.
- Provided follow-up care that maintained high patient satisfaction levels.
- Collaborated with other specialties to enhance patient care strategies.
