SKILLS

- AWS
- Azure
- CI/CD
- Docker
- Kubernetes
- HIPAA Compliance
- Python
- Monitoring Tools

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, STATE COLLEGE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully led a project that achieved 100% compliance with regulatory standards.
- Recognized for contributions to enhancing platform security, receiving the Security Excellence Award.
- Completed a cloud migration project that improved system performance by 35%.

Michael Anderson

PLATFORM ENGINEER

I am a dedicated Platform Engineer with over 6 years of experience in building and maintaining cloud infrastructure for healthcare applications. My expertise includes ensuring compliance with regulatory standards while designing scalable and secure solutions. I have a strong background in cloud technologies, particularly AWS and Azure, and I am skilled in implementing DevOps practices to enhance deployment efficiency.

EXPERIENCE

PLATFORM ENGINEER

HealthTech Innovators

2016 - Present

- Architected cloud solutions in compliance with HIPAA regulations, ensuring data security.
- Implemented continuous integration and deployment practices, reducing deployment failures by 30%.
- Developed automated testing frameworks, improving code quality and reliability.
- Worked closely with product teams to deliver features aligned with user needs and regulatory requirements.
- Conducted security assessments and audits, reinforcing platform security.
- Facilitated workshops for developers on cloud best practices and security protocols.

CLOUD ENGINEER

Medical Systems Corp.

2014 - 2016

- Assisted in the transition to cloud infrastructure, improving system flexibility and scalability.
- Developed monitoring solutions to track application performance, enhancing user experience.
- Participated in incident management processes, improving response times to critical issues.
- Documented technical processes and created knowledge-based articles for the team.
- Engaged in code reviews, ensuring adherence to coding standards and best practices.
- Supported system upgrades and maintenance, ensuring minimal disruption to services.
