Proficient Policy Evaluation Specialist with a strong foundation in urban policy and community development. Expertise in evaluating urban programs and policies that aim to improve quality of life in metropolitan areas. Skilled in employing both qualitative and quantitative evaluation methods to assess program effectiveness and community impact. Adept at engaging with local stakeholders, including government agencies, community organizations, and residents, to ensure that evaluations reflect diverse perspectives and community needs.

💼 WORK EXPERIENCE

Urban Policy Evaluator   2020-2023

City Planning Institute

- Evaluated urban development programs aimed at enhancing community livability.
- Developed comprehensive evaluation frameworks that aligned with city planning objectives.
- Collaborated with community organizations to gather input on urban policies.
- Utilized GIS tools to analyze spatial data related to urban projects.
- Facilitated public forums to present evaluation results and gather community feedback.
- Authored reports that influenced urban policy decisions at the local level.

Policy Research Analyst   2019-2020

Urban Research Center

- Conducted evaluations of housing policies affecting low-income residents.
- Designed surveys to assess community perceptions of urban development initiatives.
- Collaborated with local government to standardize evaluation processes.
- Presented findings at community meetings, fostering stakeholder engagement.
- Provided recommendations that led to a 30% increase in community investment.
- Published research that shaped urban policy discussions at the state level.

★ ACHIEVEMENTS

- Received the Urban Excellence Award for significant contributions to community development.
- Increased community participation in urban planning initiatives by 25% through targeted outreach.
- Published influential studies that informed local urban policy reforms.
