Compassionate and community-focused Population Health Specialist with over 7 years of experience in maternal and child health programs. Expertise in addressing the unique health needs of women and children through targeted interventions and education. Proven ability to foster relationships with healthcare providers, community organizations, and families to improve health outcomes. Strong skills in program management, data collection, and analysis.

WORK EXPERIENCE

MATERNAL AND CHILD HEALTH COORDINATOR

Family Health Services

2020 - 2025

- Designed and implemented maternal health programs to reduce infant mortality rates.
- Facilitated prenatal education classes, improving knowledge and health practices among participants.
- Collaborated with local clinics to ensure continuity of care for mothers and children.
- Utilized health data to track program outcomes and adjust strategies as needed.
- Engaged with community stakeholders to promote maternal and child health initiatives.
- Managed program budgets and grants, ensuring financial accountability.

COMMUNITY HEALTH EDUCATOR

Public Health Association

2015 - 2020

- Conducted health education workshops focused on nutrition and family health.
- Developed promotional materials to increase community awareness of health resources.
- Assisted in organizing health fairs that provided screenings and resources to families.
- Gathered feedback from community members to inform program improvements.
- Collaborated with schools to implement health education programs for students.
- Monitored program participation and outcomes for reporting purposes.
