

# MICHAEL ANDERSON

## POULTRY VETERINARIAN

### PROFILE

Results-driven Poultry Veterinarian with a strong background in veterinary science and a passion for avian health. Over 8 years of experience in poultry welfare and disease management, specializing in the diagnosis and treatment of infectious diseases. Proven ability to work in high-pressure environments, providing critical care and developing effective treatment plans for sick birds.

### EXPERIENCE

#### POULTRY VETERINARIAN

##### Healthy Flocks Inc.

2016 - Present

- Conducted routine health assessments and vaccinations for over 100,000 poultry annually.
- Diagnosed and treated various avian diseases, achieving a 95% recovery rate.
- Implemented biosecurity measures that reduced pathogen transmission by 50%.
- Worked closely with farmers to develop individual flock health plans.
- Performed necropsies to diagnose causes of mortality, providing detailed reports to clients.
- Engaged in community outreach programs to promote poultry health awareness.

#### JUNIOR VETERINARIAN

##### Avian Care Veterinary Services

2014 - 2016

- Assisted in the treatment of poultry patients under the supervision of senior veterinarians.
- Participated in farm visits to assess flock health and welfare.
- Helped develop educational materials for farmers on disease prevention.
- Conducted post-mortem examinations to identify disease outbreaks.
- Maintained accurate medical records and flock health data.
- Collaborated with a team of veterinarians on research projects focused on avian diseases.
