Goal-oriented and passionate Poverty Studies Researcher with a focus on rural poverty and sustainable agriculture. With over 3 years of experience in research and project management, I specialize in examining the economic challenges faced by rural communities. My educational background in Environmental Science has provided me with a unique perspective on the interconnections between poverty and environmental sustainability.

WORK EXPERIENCE

Research Fellow | Rural Development Institute

Jan 2022 – Present

- Conducted research on the impact of sustainable agricultural practices on rural poverty levels.
- Utilized statistical software to analyze data from field studies, providing actionable insights.
- Collaborated with local farmers to assess challenges and opportunities in agricultural practices.
- Presented findings at regional conferences, raising awareness of rural poverty issues.
- Developed educational materials for farmers to promote sustainable practices.
- Engaged with policymakers to advocate for support of rural development initiatives.

Field Research Intern | Sustainable Agriculture Network

Jul 2019 – Dec 2021

- Assisted in conducting surveys to evaluate the effectiveness of agricultural programs on poverty alleviation.
- Collaborated with community leaders to identify local needs and resource gaps.
- Supported data collection and analysis efforts to inform program development.
- Participated in workshops to educate farmers on sustainable agriculture techniques.
- Engaged with local stakeholders to gather feedback on program initiatives.
- Contributed to reports that highlighted the importance of agricultural sustainability in poverty reduction.
