SKILLS

- Project Management
- Risk Management
- Team Leadership
- Mechanical Systems
- Safety Protocols
- Performance Monitoring

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF ENGINEERING IN
MECHANICAL ENGINEERING, TECH
UNIVERSITY, 2005**

ACHIEVEMENTS

- Recognized for achieving a 40% reduction in equipment failure rates.
- Implemented a maintenance initiative that won the Industry Excellence Award.
- Developed a training program that improved technician performance metrics by 30%.

WORK EXPERIENCE

POWER PLANT MAINTENANCE MANAGER

Peak Energy Corp.

2020 - 2025

- Directed comprehensive maintenance programs for a 1,000 MW gas-fired power plant.
- Implemented strategic initiatives that reduced maintenance costs by 25% over three years.
- Led a team of 30 technicians, enhancing team performance through targeted training.
- Developed risk management strategies that improved safety compliance by 50%.
- Collaborated with external vendors to ensure timely procurement of critical parts.
- Monitored performance metrics and reported findings to executive management.

SENIOR MAINTENANCE TECHNICIAN

Energy First

2015 - 2020

- Executed routine maintenance on turbine generators, ensuring optimal performance.
- Participated in major plant overhauls, providing technical expertise on equipment.
- Assisted in the development of maintenance protocols and safety guidelines.
- Maintained accurate records of maintenance activities and compliance checks.
- Collaborated with engineering teams to identify and resolve equipment issues.
- Trained new hires on maintenance procedures and safety standards.
