SKILLS

- Grid Operations
- Predictive Maintenance
- Data Analysis
- Software Tools
- Operational Procedures
- Emergency Response

EDUCATION

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING, CITY COLLEGE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved grid reliability metrics, resulting in a 15% increase in service reliability.
- Awarded 'Star Performer' for outstanding contributions to system improvement projects.
- Contributed to a \$3 million project that enhanced system monitoring capabilities.

Michael Anderson

POWER SYSTEMS ENGINEER

Results-driven Power Systems Engineer with 9 years of experience in the electric utility sector, focused on enhancing grid operations and reliability. Strong analytical and problem-solving skills combined with a background in power system modeling and analysis. Proven capability in managing multiple projects simultaneously while meeting tight deadlines. Experienced in data collection and analysis to inform decision-making processes.

EXPERIENCE

POWER SYSTEMS ENGINEER

Utility Services Group

2016 - Present

- Analyzed grid reliability data to identify trends and recommend improvements.
- Developed predictive maintenance schedules that reduced outages by 20%.
- Collaborated with IT teams to enhance data collection systems for real-time monitoring.
- Conducted training sessions on new software tools for engineering staff.
- Participated in cross-functional teams to improve operational procedures.
- Supported emergency response efforts during outages, ensuring swift restoration of service.

JUNIOR POWER SYSTEMS ENGINEER

Electric Utility Solutions

2014 - 2016

- Assisted in the preparation of system studies and reports for regulatory compliance.
- Performed load flow and reliability studies to support system planning.
- Engaged in fieldwork to assess infrastructure conditions and identify improvement areas.
- Maintained records and documentation for engineering projects.
- Collaborated with senior engineers on troubleshooting and system optimization.
- Participated in safety audits to promote safe working environments.
