EXPERTISE SKILLS

- Genetic research
- Selective breeding
- Data analytics
- Team leadership
- Sustainable practices
- Regulatory compliance

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Ph.D. in Aquaculture Genetics, University of Aquatic Sciences, 2010

MICHAEL ANDERSON

SENIOR GENETIC RESEARCHER

The Prawn Farming Specialist brings a wealth of knowledge in aquaculture, particularly in the area of genetic research and breeding optimization. With a career spanning over 12 years, this professional has dedicated themselves to enhancing prawn production through scientific methods and innovative farming practices. Expertise includes the development of selective breeding programs to improve disease resistance and growth rates.

PROFESSIONAL EXPERIENCE

Aquatic Genetics Corp.

Mar 2018 - Present

Senior Genetic Researcher

- Led research projects focusing on genetic improvements in prawn species.
- Utilized CRISPR technology to enhance disease resistance in breeding stock.
- Analyzed genetic data to inform selective breeding programs.
- Collaborated with international research teams to share findings.
- Published research in peer-reviewed journals, establishing industry credibility.
- Presented findings at global aquaculture conferences, enhancing company visibility.

GreenWave Farms

Dec 2015 - Jan 2018

Aquaculture Operations Manager

- Managed a team of 15 in daily farm operations, focusing on yield optimization.
- Implemented data-driven decision-making processes to enhance productivity.
- Oversaw the development of biosecure facilities to prevent disease outbreaks.
- Trained staff on genetic research applications in farming.
- Engaged in sustainability initiatives, reducing waste by 30%.
- Coordinated with supply chain partners to ensure quality feed supply.

ACHIEVEMENTS

- Developed a new prawn strain that increased growth rates by 40%.
- Awarded 'Best Research Paper' at the International Aquaculture Conference.
- Secured funding for innovative research projects, enhancing laboratory capabilities.
