## SKILLS

- Precision Farming
- Soil Analysis
- Data Interpretation
- Technical Support
- Training
- Research

## LANGUAGES

- English
- Spanish
- French

## EDUCATION

**BACHELOR OF SCIENCE IN AGRICULTURAL TECHNOLOGY, PURDUE UNIVERSITY**

## ACHIEVEMENTS

- Contributed to a 15% increase in farm productivity through precision strategies.
- Recognized for outstanding performance in agricultural research projects.
- Developed a community outreach program to educate on sustainable practices.

## WORK EXPERIENCE

### PRECISION AGRICULTURE TECHNICIAN

EcoFarms Ltd.

2020 - 2025

- Executed precision farming protocols to enhance crop yield by 18%.
- Monitored soil and crop conditions using advanced technology.
- Provided technical support for precision irrigation systems.
- Conducted field trials to evaluate new agricultural products.
- Collaborated with agronomists to develop best practices for farmers.
- Trained farmers on the use of precision agriculture tools.

### AGRICULTURAL RESEARCH ASSISTANT

University of Agriculture

2015 - 2020

- Assisted in research projects focused on soil health and crop productivity.
- Collected and analyzed data to support agricultural studies.
- Worked on developing educational materials for farmers.
- Participated in field assessments to monitor crop performance.
- Supported the implementation of sustainable farming practices.
- Coordinated workshops and training sessions for local farmers.
