Innovative Preventive Maintenance Engineer with 6 years of experience in the telecommunications industry, specializing in the maintenance of network infrastructure and equipment. I have a proven ability to develop and implement preventive maintenance strategies that ensure network reliability and performance. My background includes hands-on experience with fiber optic systems, routers, and switches, where I have successfully reduced network downtime through proactive maintenance practices.

WORK EXPERIENCE

Preventive Maintenance Engineer | Telecom Solutions Inc.

Jan 2022 – Present

- Developed and executed preventive maintenance plans for network infrastructure, improving system uptime by 20%.
- Conducted regular inspections and maintenance on fiber optic systems and network equipment.
- Collaborated with cross-functional teams to troubleshoot and resolve network issues promptly.
- Maintained detailed records of maintenance activities and performance metrics for compliance audits.
- Trained junior technicians on best practices for network maintenance and troubleshooting.
- Utilized network monitoring tools to track performance and identify maintenance needs proactively.

Network Maintenance Technician | ConnectNow Networks

Jul 2019 – Dec 2021

- Assisted in the maintenance and repair of telecommunications equipment, contributing to a 15% reduction in service outages.
- Participated in network upgrades and installations, ensuring seamless transitions.
- Maintained accurate logs of maintenance activities for compliance with industry standards.
- Provided technical support to clients regarding network performance and maintenance.
- Supported the development of training materials for new hires in network maintenance.
- Participated in safety training and adhered to safety protocols on job sites.
