### WORK EXPERIENCE

#### MATERNAL AND CHILD HEALTH PHYSICIAN

Family Health Services

2020 - 2025

- Provided prenatal and postnatal care for over 500 women, ensuring healthy pregnancies and deliveries.
- Conducted well-child visits, monitoring growth and development in children from birth to age five.
- Implemented educational programs on nutrition and breastfeeding, improving health outcomes for mothers and children.
- Collaborated with local organizations to provide resources for low-income families, increasing access to healthcare.
- Advocated for maternal health policies that support women's health rights in the community.
- Utilized patient feedback to enhance care delivery and patient satisfaction in maternal health services.

#### PRIMARY CARE PHYSICIAN

Community Health Clinic

2015 - 2020

- Managed a diverse patient population with a focus on preventive care and health education.
- Increased patient participation in immunization programs by 40% through community outreach.
- Conducted health screenings and assessments to identify at-risk populations.
- Collaborated with pediatricians to provide integrated care for children with chronic health issues.
- Led workshops on family planning and reproductive health, empowering women to make informed choices.
- Documented and tracked patient outcomes to improve quality of care in the clinic.
