MICHAEL ANDERSON

STEM PRIMARY SCHOOL TEACHER

Results-oriented Primary School Teacher with over 10 years of experience in diverse educational settings, including urban and suburban schools. I have a strong background in STEM education, focusing on fostering students' analytical and problem-solving skills through hands-on learning experiences. My teaching style emphasizes inquiry-based learning, allowing students to explore and discover concepts through experimentation.

PROFESSIONAL EXPERIENCE

Innovation Academy

Mar 2018 - Present

STEM Primary School Teacher

- Developed and implemented a STEM curriculum that increased student interest in science and math by 50%.
- Facilitated hands-on experiments and projects that enhanced critical thinking and problem-solving skills.
- Collaborated with families to create a science fair that showcased student projects and creativity.
- Utilized technology tools to track student progress and adapt instruction based on data.
- Conducted professional development workshops for teachers on integrating STEM into their classrooms.
- Created partnerships with local science organizations to provide students with real-world learning opportunities.

Riverside Elementary School

Dec 2015 - Jan 2018

Primary School Teacher

- Implemented differentiated instruction strategies to support a diverse student population.
- Organized a summer reading program that improved literacy rates by 20% among participants.
- Utilized formative assessments to guide instructional planning and student support.
- Engaged students in collaborative learning projects that fostered teamwork and communication skills.
- Maintained open communication with parents to support student learning and development.
- Coordinated field trips that provided students with experiential learning opportunities.

ACHIEVEMENTS

- Recognized for outstanding achievement in student performance on state assessments in 2018.
- Successfully led a grant proposal that funded the purchase of STEM resources for the school.
- Increased student participation in the science fair by 60% through innovative programming.
