MICHAEL ANDERSON

PRIVATE CLOUD ENGINEER

I am a dedicated Private Cloud Engineer with 6 years of experience in the IT industry, focusing on cloud infrastructure and network security. My career began in network administration, where I developed a strong foundation in managing servers and networking devices. Transitioning into cloud engineering, I have honed my skills in designing private cloud solutions that prioritize security and high availability.

PROFESSIONAL EXPERIENCE

SecureCloud Technologies

Mar 2018 - Present

Private Cloud Engineer

- Designed and deployed a secure private cloud solution using VMware and NSX for network segmentation.
- Implemented security best practices, reducing vulnerabilities by 40% in the infrastructure.
- Worked with DevOps teams to integrate CI/CD processes for cloud applications.
- Configured and managed storage solutions, optimizing performance for critical applications.
- Conducted regular security audits and compliance checks, maintaining industry standards.
- Provided training to teams on cloud security protocols and best practices.

Network Solutions Inc.

Dec 2015 - Jan 2018

Network Administrator

- Managed and maintained server and network infrastructure to ensure optimal performance.
- Configured firewalls and VPNs to enhance security across networks.
- Executed network monitoring and troubleshooting, reducing downtime by 30%.
- Developed documentation for network architecture and processes.
- Assisted in the migration to a private cloud solution, improving scalability.
- Collaborated with IT staff to implement new technologies and tools.

ACHIEVEMENTS

- Achieved a 99.9% uptime for cloud services through effective management.
- Recognized for developing a security training program that was implemented company-wide.
- Improved incident response times by 25% through effective monitoring strategies.
