As a Product Design Engineer with 3 years of experience in the software solutions industry, I specialize in creating user interfaces and experiences that enhance productivity and user satisfaction. My background in Graphic Design and Computer Science allows me to merge aesthetics with functionality. I have a strong understanding of user-centered design principles and have successfully led projects that improve software usability.

WORK EXPERIENCE

Product Design Engineer | SoftWare Innovations   Jan 2022 – Present

- Designed user interfaces for enterprise software applications, improving user productivity by 20%.
- Collaborated with developers to implement design changes and enhancements in a timely manner.
- Conducted user testing sessions to gather feedback and iterate on design improvements.
- Utilized design tools such as Sketch and Figma to create wireframes and prototypes.
- Participated in agile sprints to ensure alignment with project goals and deadlines.
- Presented design proposals to stakeholders, effectively communicating design rationale and benefits.

Graphic Designer | Creative Solutions Group   Jul 2019 – Dec 2021

- Assisted in the design of marketing materials, focusing on visual appeal and brand consistency.
- Created graphics and layouts for digital platforms, enhancing user engagement.
- Conducted research on design trends to inform marketing strategies.
- Worked with cross-functional teams to support product launches and promotions.
- Documented design processes and maintained brand guidelines for consistency.
- Contributed to brainstorming sessions that generated creative concepts for campaigns.

SKILLS

User Interface Design   Agile Methodologies   Prototyping   Graphic Design   Team Collaboration   Design Tools
