MICHAEL ANDERSON

PRODUCT SECURITY ENGINEER

Innovative Product Security Engineer with a focus on DevSecOps practices and over 6 years of experience in software development and security. My career has been centered around integrating security into the software development lifecycle, ensuring that security measures are embedded at every stage of product development. I am adept at utilizing automation tools to streamline security testing and enhance team collaboration.

PROFESSIONAL EXPERIENCE

Agile Tech Solutions

Mar 2018 - Present

Product Security Engineer

- Integrated security testing tools into the CI/CD pipeline to enhance product security.
- Collaborated with development teams to incorporate security best practices in agile sprints.
- Automated security assessments which improved testing efficiency by 60%.
- Conducted security training sessions for developers to increase awareness of vulnerabilities.
- Analyzed security incidents to provide actionable insights for future improvements.
- Developed security metrics to measure the effectiveness of implemented controls.

Innovative Software Corp.

Dec 2015 - Jan 2018

Software Engineer

- Designed and developed secure software applications while adhering to security standards.
- Collaborated in peer code reviews to identify and rectify security vulnerabilities.
- Participated in the development of a secure software development lifecycle.
- Implemented logging and monitoring solutions to detect security anomalies.
- Created documentation for secure coding practices to guide fellow developers.
- Engaged in continuous learning to keep up with security trends and best practices.

ACHIEVEMENTS

- Improved security testing coverage by 70% through automation and integration.
- Recognized for outstanding contributions to agile product development and security.
- Developed a best practices guide that reduced vulnerabilities in new products by 30%.
