Michael Anderson

CLOUD PRODUCT SECURITY ENGINEER

Proactive and analytical Product Security Engineer with over 7 years of experience in cybersecurity, focusing on securing cloud-based applications and services. I have a strong track record of designing and implementing security solutions that safeguard data in multi-cloud environments. My expertise in cloud security frameworks, combined with my hands-on experience in conducting risk assessments and compliance audits, allows me to effectively mitigate risks and enhance the security posture of organizations.

EXPERIENCE

CLOUD PRODUCT SECURITY ENGINEER

Cloud Security Solutions

2016 - Present

- Designed cloud security architectures to protect sensitive data across multiple cloud platforms.
- Conducted risk assessments and compliance audits to ensure adherence to security standards.
