### EDUCATION

**BACHELOR OF SCIENCE IN NURSING,  
PEDIATRIC NURSING SPECIALIZATION,  
STATE UNIVERSITY, 2018**

### ACHIEVEMENTS

- Received a commendation for outstanding patient care during my internship at Pediatric Hospital.
- Successfully organized a health fair that educated over 200 families on childhood nutrition.
- Contributed to a research project on childhood obesity, presented at a national nursing conference.

### PROFILE

Enthusiastic and detail-oriented Professional Nurse with 4 years of experience specializing in pediatric care. I have a deep passion for working with children and their families, ensuring that each child receives compassionate and comprehensive care. My approach blends clinical expertise with a nurturing demeanor, fostering trust and comfort in patients. I am skilled in performing assessments, administering medications, and managing chronic conditions.

### EXPERIENCE

#### PEDIATRIC NURSE

##### Children's Health Clinic

*2016 - Present*

- Administered routine immunizations and monitored development milestones in pediatric patients.
- Conducted health screenings and documented findings in EHRs to ensure continuity of care.
- Educated families on nutrition, hygiene, and preventive care practices to promote healthy lifestyles.
- Collaborated with pediatricians and specialists to develop individualized care plans for children with chronic illnesses.
- Participated in community outreach programs to raise awareness about children's health issues.
- Assisted in managing a busy clinic, ensuring timely patient flow and satisfaction.

#### NURSING INTERN

##### Pediatric Hospital

*2014 - 2016*

- Assisted in the care of hospitalized children, providing support during medical procedures.
- Learned to perform basic nursing assessments under the supervision of experienced nurses.
- Engaged with families to provide emotional support and education during hospital stays.
- Documented patient information accurately in EHR systems, enhancing communication with the healthcare team.
- Participated in nursing rounds, contributing to team discussions on patient care strategies.
- Gained hands-on experience in administering medications and monitoring vital signs.
