

# MICHAEL ANDERSON

Web Application Developer

I am a detail-oriented Progressive Web App Developer with over 5 years of experience in the finance sector, specializing in building secure and efficient web applications for banking and investment services. My technical skills in JavaScript, HTML, and CSS, combined with a strong understanding of financial regulations, enable me to create applications that meet both user needs and compliance standards.

## WORK EXPERIENCE

### Web Application Developer

2020-2023

Finance Tech Group

- Developed a PWA for mobile banking, achieving a 45% increase in user engagement.
- Implemented secure authentication processes to protect user data.
- Collaborated with product managers to identify new features based on user feedback.
- Conducted performance testing to ensure application reliability and speed.
- Worked with designers to enhance the user interface for better user experience.
- Maintained up-to-date knowledge of financial regulations impacting web applications.

### Junior Developer

2019-2020

Investment Solutions Inc.

- Assisted in the development of a trading platform PWA, increasing transaction volume by 30%.
- Participated in code reviews to improve code quality and team efficiency.
- Contributed to user interface design to create an intuitive experience for users.
- Helped with troubleshooting and support for application users.
- Conducted user research to guide feature development and enhancements.
- Wrote documentation to support application functionalities and user guides.

## ACHIEVEMENTS

- Received an award for Best Innovation in Financial Technology from the company.
- Increased customer satisfaction ratings by 20% through improved application features.
- Contributed to a project that achieved a significant reduction in transaction processing time.
