- French

Dynamic Psychiatric Care Nurse with 4 years of experience in a fast-paced emergency department. I have developed a keen ability to assess and manage acute psychiatric crises effectively while ensuring patient safety and dignity. My background includes working in diverse healthcare environments, allowing me to adapt quickly to various situations and patient needs.

💼 WORK EXPERIENCE

Emergency Psychiatric Nurse   2020-2023

City Emergency Department

- Assessed and triaged patients presenting with acute psychiatric symptoms.
- Utilized de-escalation techniques to manage crisis situations effectively.
- Collaborated with emergency responders to ensure comprehensive patient care.
- Documented patient interactions and treatment plans in electronic health records.
- Educated patients and families on available mental health resources.
- Participated in interdisciplinary team meetings to discuss patient care strategies.

Psychiatric Nurse Intern   2019-2020

Community Health Clinic

- Supported nursing staff in providing care for patients with mental health issues.
- Assisted in patient assessments and developing care plans under supervision.
- Participated in group therapy sessions and therapeutic activities.
- Maintained accurate documentation of patient care activities.
- Engaged in community outreach programs to raise awareness about mental health.
- Provided support to families navigating mental health resources.

★ ACHIEVEMENTS

- Improved patient flow in the emergency department by implementing streamlined assessment protocols.
- Received commendation for excellence in patient care during emergency situations.
- Contributed to a team initiative that reduced psychiatric hold times by 20%.
