I am a forward-thinking Psychometrics Researcher with over 4 years of experience in the field of sports psychology, focusing on athlete assessment and performance optimization. My journey began with a deep interest in how psychological factors influence athletic performance. I have developed assessments that measure mental toughness, motivation, and team dynamics, directly impacting athletes' training and performance outcomes.

WORK EXPERIENCE

Sports Psychometrics Researcher | Athlete Performance Lab

Jan 2022 – Present

- Developed assessments to measure mental toughness in athletes.
- Collaborated with coaches to tailor training programs based on assessment results.
- Analyzed performance data to identify psychological factors affecting outcomes.
- Conducted workshops on mental skills training for athletes.
- Improved athlete performance metrics by 10% through targeted interventions.
- Presented research findings at sports psychology conferences.

Research Intern | Sports Psychology Institute

Jul 2019 – Dec 2021

- Assisted in developing assessments for athlete motivation and performance.
- Conducted literature reviews on psychological impacts in sports.
- Participated in focus groups with athletes to gather qualitative insights.
- Analyzed survey data to inform research conclusions.
- Contributed to the publication of a research paper on athlete resilience.
- Supported the development of training materials for coaches.
