MICHAEL ANDERSON

CLOUD OPERATIONS ENGINEER

Detail-oriented Public Cloud Engineer with 7 years of experience in cloud platform management and infrastructure automation. Specialized in AWS and Google Cloud Platform, with expertise in networking and security configurations. Skilled in implementing Infrastructure as Code (IaC) using tools like CloudFormation and Terraform. Proven ability to lead cloud migration projects, resulting in enhanced application performance and reduced operational costs.

PROFESSIONAL EXPERIENCE

TechSphere Solutions   *Mar 2018 - Present*
Cloud Operations Engineer

- Managed cloud operations and infrastructure for multiple clients on AWS.
- Implemented IaC using CloudFormation, speeding up deployment times by 40%.
- Configured VPCs and security groups, ensuring compliance with best practices.
- Collaborated with development teams to troubleshoot cloud-related issues.
- Conducted regular performance tuning of cloud resources to optimize costs.
- Documented operational procedures and created knowledge base articles for future reference.

Digital Networks Inc.   *Dec 2015 - Jan 2018*
Network Engineer

- Designed and implemented network solutions for cloud-based applications.
- Managed IP addressing and routing protocols in AWS environments.
- Monitored network performance using tools, ensuring 99.9% uptime.
- Conducted security assessments and implemented firewalls in cloud environments.
- Worked with cross-functional teams to integrate cloud solutions into existing infrastructures.
- Provided support for cloud-related incidents, improving response time by 25%.

ACHIEVEMENTS

- Successfully led a cloud migration for a major client, reducing costs by 30%.
- Recognized for innovative solutions that improved cloud infrastructure performance.
- Received a company award for outstanding customer service in cloud projects.
