

Michael ANDERSON

SENIOR PROGRAM MANAGER

Strategic Public Health Advisor with over 15 years of experience in global health initiatives and program management. My career has been dedicated to addressing health disparities in low-income countries through innovative health solutions and sustainable practices. I have extensive experience in project implementation, monitoring, and evaluation, ensuring that health programs are responsive to the needs of the communities served.

WORK EXPERIENCE

SENIOR PROGRAM MANAGER

Global Health Organization

2020 - 2025

- Managed a \$3 million global health initiative focused on maternal and child health in Sub-Saharan Africa.
- Developed and implemented monitoring and evaluation frameworks to assess program effectiveness.
- Collaborated with local health ministries to strengthen health systems and improve service delivery.
- Conducted training for local health workers, enhancing their capacity to provide quality care.
- Secured funding from international donors, ensuring program sustainability and expansion.
- Presented program outcomes at international health conferences, showcasing effective practices.

PROGRAM COORDINATOR

International Health Agency

2015 - 2020

- Coordinated global health projects aimed at disease prevention and health promotion in various countries.
- Conducted needs assessments to identify health challenges and develop targeted interventions.
- Collaborated with local organizations to implement health education programs, reaching thousands of beneficiaries.
- Monitored project progress and prepared reports for stakeholders, ensuring transparency and accountability.
- Developed partnerships with governmental and non-governmental organizations to enhance program reach.
- Utilized data analysis to inform program adjustments and improve health outcomes.
