# MICHAEL ANDERSON

## SENIOR PUBLIC HEALTH ANALYST

Analytical and detail-oriented Public Health Analyst with over 8 years of experience in health data analytics and epidemiology. Expertise in using advanced statistical techniques to analyze health trends and evaluate public health interventions. Strong skills in data visualization, report writing, and presenting complex information in an accessible manner. Committed to improving public health outcomes through evidence-based research and collaboration with health agencies and stakeholders.

## **PROFESSIONAL EXPERIENCE**

### **Federal Health Agency**

*Mar 2018 - Present*

Senior Public Health Analyst

- Led data analysis projects to evaluate national health programs and policies.
- Developed statistical models to predict health trends and assess risks.
- Collaborated with public health officials to design interventions based on findings.
- Provided training to junior analysts on statistical software and analysis techniques.
- Presented data-driven recommendations to senior management.
- Published findings in national health reports and journals.

### **City Health Department**

*Dec 2015 - Jan 2018*

Public Health Analyst

- Conducted epidemiological investigations of disease outbreaks.
- Analyzed demographic data to identify at-risk populations.
- Worked with community organizations to implement health education programs.
- Monitored health indicators and prepared reports for stakeholders.
- Utilized GIS tools to visualize health data geographically.
- Participated in health fairs to promote public health awareness.

## **ACHIEVEMENTS**

- Developed a predictive model that improved disease outbreak response times by 30%.
- Received the Excellence in Public Health Research Award in 2019.
- Contributed to a collaborative project that reduced smoking rates by 10% in the community.
