SUMMARY

Dedicated Public Health Data Analyst with over 6 years of experience in analyzing health-related data to drive public health initiatives. I have a strong background in statistics and data management, complemented by my expertise in using analytical tools to interpret complex datasets. My recent role involved collaborating with healthcare professionals to develop strategies that improved community health outcomes.

WORK EXPERIENCE

Senior Data Analyst Health Innovations LLC   *Jan 2023 - Present*

- Conducted comprehensive data analyses to identify trends in community health outcomes.
- Utilized statistical software such as R and SAS for data modeling and reporting.
- Collaborated with cross-functional teams to develop targeted health intervention strategies.
- Presented analytic findings to healthcare leaders and stakeholders, influencing policy changes.
- Developed dashboards for real-time data monitoring, improving response times to health crises.
- Led training sessions for junior analysts on best practices in data analysis.

Public Health Analyst City Health Department   *Jan 2020 - Dec 2022*

- Analyzed epidemiological data to track disease outbreaks and inform public health responses.
- Managed large datasets using SQL for data extraction and analysis.
- Assisted in the development of public health reports and policy recommendations.
- Worked with community organizations to implement health education programs based on data insights.
- Implemented data quality assurance processes, enhancing data reliability.
- Facilitated workshops to educate stakeholders on data-driven public health approaches.

EDUCATION

Master of Public Health, University of Public Health, 2016   *Sep 2019 - Oct 2020*
