EDUCATION

BACHELOR OF ARTS IN HEALTH SCIENCES, STATE UNIVERSITY, 2016

ACHIEVEMENTS

- Secured funding for health initiatives resulting in a 15% increase in service reach.
- Presented findings to over 100 community members, enhancing public awareness.
- Recognized for contributions to a successful health campaign that improved local health metrics.

PUBLIC HEALTH DATA ANALYST

Dynamic and resourceful Public Health Data Analyst with 5 years of experience in utilizing data to support public health initiatives and improve community health services. My expertise lies in extracting insights from healthcare databases and presenting them in a clear and impactful manner. I have successfully collaborated with public health departments and community organizations to develop data-informed strategies that address health vulnerabilities.

WORK EXPERIENCE

PUBLIC HEALTH DATA ANALYST

Metro Health Services

2020 - 2025

- Analyzed community health data to inform public health program development.
- Utilized GIS tools to map health resources and identify service gaps.
- Produced comprehensive reports for community stakeholders and local government.
- Collaborated with nonprofits to evaluate the impact of health initiatives.
- Conducted focus groups to gather qualitative data for program improvement.
- Trained community health workers on data collection and analysis techniques.

DATA SPECIALIST

Healthy Communities Coalition

2015 - 2020

- Managed data systems for tracking health program outcomes and metrics.
- Analyzed program data to assess effectiveness and inform future initiatives.
- Developed visualizations to present data findings at community meetings.
- Worked with health educators to implement data-driven health campaigns.
- Prepared grant proposals based on data insights to secure funding.
- Facilitated workshops on health data literacy for community partners.
