EDUCATION

MASTER OF PUBLIC HEALTH, STATE UNIVERSITY, 2013

ACHIEVEMENTS

- Awarded the Community Impact Award for leading successful health initiatives in 2020.
- Recognized for exceptional contributions to public health research by the National Health Association.
- Increased participation in health programs by 30% through strategic outreach initiatives.

PROFILE

Results-driven Public Health Evaluation Specialist with a solid background in both clinical and community settings. With over 8 years of experience, I have developed expertise in evaluating health intervention programs and assessing their impact on diverse populations. My approach combines robust statistical methodologies with an empathetic understanding of community needs, allowing me to tailor evaluations that resonate with stakeholders.

EXPERIENCE

PUBLIC HEALTH EVALUATION CONSULTANT

Community Health Advisory Board

2016 - Present

- Evaluated community health initiatives, leading to a 20% increase in health service utilization.
- Developed evaluation frameworks for local health programs to measure effectiveness.
- Conducted stakeholder interviews to gather qualitative feedback on health services.
- Utilized data visualization tools to present findings to community leaders.
- Trained staff on best practices in program evaluation and reporting.
- Implemented surveys to assess community health literacy, resulting in enhanced outreach efforts.

RESEARCH ASSOCIATE

University Research Center

2014 - 2016

- Assisted in the evaluation of a statewide smoking cessation program, achieving a 25% reduction in smoking rates.
- Analyzed survey data using statistical software, contributing to program improvement recommendations.
- Co-authored research publications that informed state health policies.
- Facilitated focus groups for feedback on health interventions.
- Participated in interdisciplinary teams to promote research collaborations.
- Maintained accurate documentation of research protocols and findings.
