EDUCATION

MASTER OF PUBLIC HEALTH, CITY UNIVERSITY, 2013

ACHIEVEMENTS

- Received the Excellence in Health Policy Award for contributions to urban health initiatives in 2019.
- Increased funding for health programs by 25% through strategic evaluations.
- Recognized for exceptional research contributions by the American Public Health Association.

SENIOR HEALTH POLICY ANALYST

Innovative Public Health Evaluation Specialist with over 7 years of experience in health systems evaluation and policy analysis. My career has revolved around assessing the impact of health policies on population health, particularly in urban settings. I have developed a strong skill set in both qualitative and quantitative evaluation methods, allowing me to provide comprehensive insights into the effectiveness of public health interventions.

WORK EXPERIENCE

SENIOR HEALTH POLICY ANALYST
Urban Health Network

2020 - 2025

- Led evaluations of health policy impacts, resulting in actionable insights for local government.
- Conducted qualitative research to gather community perspectives on health initiatives.
- Utilized advanced statistical techniques to analyze health data and inform policy decisions.
- Collaborated with stakeholders to develop evidence-based health programs.
- Presented evaluation findings to city officials, influencing health policy reforms.
- Authored policy briefs that guided funding allocations for health programs.

HEALTH SYSTEMS RESEARCHER
National Institute of Health

2015 - 2020

- Conducted evaluations of national health programs, resulting in improved service delivery.
- Analyzed healthcare access data to identify disparities among populations.
- Participated in cross-disciplinary teams to enhance research methodologies.
- Published findings in top-tier journals, impacting health policy discussions.
- Facilitated workshops to train health professionals on evaluation techniques.
- Compiled comprehensive reports on health program outcomes for stakeholders.
