SKILLS

- health economics
- policy analysis
- economic modeling
- data interpretation
- stakeholder collaboration
- healthcare reform

EDUCATION

**MASTER OF HEALTH ECONOMICS,
UNIVERSITY OF ECONOMIC SCIENCES**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Secured funding for a groundbreaking study on the economic impact of health disparities.
- Recognized for excellence in research by the Health Economics Association.
- Influenced state policy changes that improved healthcare access for low-income populations.

Michael Anderson

HEALTH POLICY ECONOMIST

Experienced Public Health Policy Researcher with a strong background in health economics and policy analysis. Over the past 10 years, I have focused on the financial implications of health policies and their impact on healthcare accessibility. My work has involved extensive economic modeling and cost-benefit analyses to guide policy decisions that enhance the efficiency of healthcare delivery.

EXPERIENCE

HEALTH POLICY ECONOMIST

Centers for Medicare & Medicaid Services

2016 - Present

- Conducted economic analyses to evaluate the impact of healthcare policies on costs and access.
- Developed models to predict the financial outcomes of proposed health policies.
- Collaborated with cross-functional teams to assess the feasibility of healthcare reforms.
- Presented economic research findings to stakeholders to influence health policy decisions.
- Authored reports that provided actionable recommendations for improving healthcare efficiency.
- Engaged in outreach to educate policymakers on health economics and funding implications.

SENIOR POLICY ANALYST

Health Economics Institute

2014 - 2016

- Analyzed the economic impacts of public health policies on various populations.
- Developed comprehensive reports assessing cost-effectiveness of health interventions.
- Collaborated with health organizations to identify economic barriers affecting healthcare access.
- Participated in policy discussions to advocate for economically sustainable health initiatives.
- Conducted workshops for policymakers to enhance understanding of health economics.
- Published articles in leading journals on the intersection of health policy and economics.
