

MICHAEL ANDERSON

Social Determinants of Health Researcher

- San Francisco, CA
- (555) 234-5678
- michael.anderson@email.com

Strategic Public Health Policy Researcher dedicated to addressing health disparities and promoting health equity. With over 7 years of experience in public health research, I focus on analyzing the social determinants of health and their impact on policy development. My background in sociology and public health allows me to examine the interplay between socio-economic factors and health outcomes.

WORK EXPERIENCE

Social Determinants of Health Researcher | Health Equity Research Center

Jan 2022 – Present

- Conducted research studies to assess the impact of socio-economic factors on health outcomes.
- Collaborated with community organizations to identify health disparities in underserved populations.
- Presented research findings to policymakers to advocate for health equity initiatives.
- Co-authored policy briefs that provided evidence-based recommendations for improving health access.
- Engaged in community outreach to educate the public on health equity issues.
- Utilized statistical software to analyze complex datasets on health disparities.

Public Health Research Associate | Center for Social Justice and Health

Jul 2019 – Dec 2021

- Assisted in research projects focused on the intersections of race, income, and health outcomes.
- Conducted surveys to gather qualitative data on health experiences of marginalized communities.
- Collaborated with local health departments to implement community-based health initiatives.
- Prepared reports that highlighted the need for policy changes to address health inequities.
- Participated in advocacy efforts to promote health justice at the local and state levels.
- Developed educational materials to raise awareness about social determinants of health.
