MICHAEL ANDERSON

HEALTH ECONOMIST

Goal-oriented Public Health Researcher with a background in health economics and policy analysis. Over 5 years of experience working with government agencies to assess the economic impacts of health interventions. Expert in cost-effectiveness analysis and health outcome measurement, capable of translating complex data into strategic recommendations. Demonstrated ability to engage with diverse stakeholders, including policymakers and healthcare providers, to promote evidence-based health policies.

PROFESSIONAL EXPERIENCE

National Health Economics Center

Mar 2018 - Present

Health Economist

- Conducted economic evaluations of health programs, identifying cost-saving opportunities.
- Developed models to assess the long-term impact of public health interventions.
- Collaborated with interdisciplinary teams to inform policy decisions based on economic analysis.
- Presented findings to government stakeholders, influencing funding allocations for health programs.
- Authored reports that received recognition from health policy organizations.
- Led workshops on health economics for public health professionals and students.

State Department of Health

Dec 2015 - Jan 2018

Research Analyst

- Assisted in analyzing data on healthcare utilization and costs across various demographics.
- Developed comprehensive reports on the economic impact of chronic diseases.
- Collaborated with public health officials to evaluate program effectiveness and efficiency.
- Participated in the development of strategic plans to enhance healthcare delivery systems.
- Maintained databases for ongoing health economics research projects.
- Supported grant applications by providing economic data and analysis.

ACHIEVEMENTS

- Published a key paper on the cost-effectiveness of preventive health measures in a leading journal.
- Awarded the 'Emerging Leader in Health Economics' by the National Association of Health Economists.
- Secured a \$150,000 research grant for a project on healthcare financing models.
