# MICHAEL ANDERSON

## APPLICATION ARCHITECT

Innovative Public Sector Application Developer specializing in the design and implementation of digital solutions that enhance service delivery in public organizations. With a strong focus on user experience and accessibility, this professional excels in creating applications that are not only functional but also intuitive and engaging for end-users.

## PROFESSIONAL EXPERIENCE

### **Department of Education**

*Mar 2018 - Present*

Application Architect

- Designed a student information system that streamlined enrollment processes.
- Collaborated with educators to gather feedback for user-centered design improvements.
- Utilized Angular and Node.js to develop dynamic web applications.
- Implemented accessibility features to ensure compliance with ADA standards.
- Conducted training sessions for staff on new system functionalities.
- Monitored system performance and implemented enhancements based on analytics.

### **Public Safety Department**

*Dec 2015 - Jan 2018*

Software Engineer

- Developed incident reporting applications for law enforcement agencies.
- Employed Java and Spring Boot to create secure and efficient software solutions.
- Managed database design and implemented data security measures.
- Worked with law enforcement personnel to understand operational workflows.
- Facilitated user acceptance testing to validate application effectiveness.
- Provided ongoing maintenance and support for deployed applications.

## ACHIEVEMENTS

- Recognized for outstanding contribution to the development of a state-wide student information system.
- Achieved a 40% reduction in processing times for incident reports through software enhancements.
- Received commendation from the Department of Education for exceptional service delivery.
