SKILLS

- Smart technology
- Data analysis
- Project management
- IoT solutions
- Urban planning
- Stakeholder engagement

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER OF SCIENCE IN URBAN ENGINEERING, TECH UNIVERSITY, 2014

ACHIEVEMENTS

- Recognized for leading a project that improved public safety through smart technology by 30%.
- Secured a grant for \$1 million to develop smart city initiatives.
- Increased public awareness and support for smart infrastructure projects by 40% through outreach efforts.

WORK EXPERIENCE

SMART CITY ENGINEER

TechUrban Solutions

2020 - 2025

- Developed intelligent transportation systems that reduced traffic congestion by 25%.
- Integrated IoT solutions into public infrastructure, enhancing operational efficiency.
- Conducted data analysis to inform infrastructure investment decisions.
- Collaborated with city planners to develop smart mobility strategies.
- Managed a project team focused on implementing smart lighting systems in public spaces.
- Presented findings to stakeholders, driving community support for technology initiatives.

PUBLIC WORKS ENGINEER

UrbanTech Engineering

2015 - 2020

- Designed and implemented energy-efficient public lighting systems across urban areas.
- Utilized GIS and data modeling tools to optimize infrastructure planning.
- Engaged with local communities to address concerns regarding smart technology deployments.
- Conducted project evaluations to assess impact and gather feedback for improvements.
- Coordinated with technology vendors to ensure successful implementation of smart solutions.
- Authored technical reports and presentations for city council reviews.
