WORK EXPERIENCE

HVAC Pump Technician

2020-2023

Climate Control Services

- Maintained and repaired HVAC pump systems to ensure optimal heating and cooling performance.
- Conducted system diagnostics and implemented corrective actions to resolve issues.
- Developed and executed preventive maintenance schedules for pump operations.
- Collaborated with engineers to improve pump efficiency and energy consumption.
- Trained junior staff on pump maintenance and HVAC best practices.
- Documented service reports and maintained accurate records of all maintenance activities.

Pump Technician

2019-2020

HVAC Solutions Group

- Assisted in the installation and commissioning of HVAC pump systems.
- Performed routine inspections and maintenance to ensure compliance with industry standards.
- Worked closely with project managers to meet deadlines and client specifications.
- Participated in training sessions to enhance technical skills and knowledge.
- Maintained accurate documentation for all service activities.
- Supported energy efficiency initiatives that reduced overall HVAC costs.

ACHIEVEMENTS

- Achieved a 20% reduction in energy costs through system optimization.
- Recognized for exceptional performance in service delivery and client satisfaction.
- Successfully trained a team of technicians on advanced HVAC systems.
