EDUCATION

MASTER OF SCIENCE IN
CYBERSECURITY - TECH UNIVERSITY

ACHIEVEMENTS

- Improved overall security posture by reducing vulnerabilities by 40% through proactive measures.
- Recognized for excellence in incident response during a critical breach situation.
- Successfully completed a penetration testing project that uncovered significant weaknesses in the system.

PROFILE

Innovative and detail-oriented Purple Team Engineer with over 5 years of experience in information security and risk management. My expertise lies in integrating offensive and defensive strategies to enhance the overall security architecture of organizations. I have played a pivotal role in developing security frameworks that not only defend against attacks but also proactively test and improve these defenses.

EXPERIENCE

PURPLE TEAM ENGINEER

SecureTech Systems

2016 - Present

- Executed coordinated red and blue team exercises to strengthen organizational defenses.
- Developed incident response plans and conducted tabletop exercises to test effectiveness.
- Created detailed threat models to identify potential vulnerabilities and attack vectors.
- Worked with SIEM tools to analyze security alerts and improve detection capabilities.
- Documented findings and prepared presentations for senior management and stakeholders.
- Mentored junior analysts on best practices in threat assessment and incident management.
